EDUCATION

MIPT
Bachelor of Applied Mathematics and Physics.(in process)

Lyceum of Belarusian State University, Minsk, Belarus
Physical class.

Gymnasium №1 named after F. Skorina, Minsk, Belarus

PROJECTS (MIPT, 1 course, prof. Dedinsky I.R.)

My own programming language | May 2022

Creating a programming language whose program runs on its own *virtual machine*.
The parser is implemented on the recursive descent algorithm.
The program itself is stored as a binary tree. With cross compilation support.

Differentiator | April 2022

Differentiator Implementation. A program that can calculate any derivatives and makes tex dump. Working with binary trees and graph-viz.

PROJECTS (MIPT, 2 course, prof Pudgorodsky Y.A.)

Some problems in system-programming | 3 sem 2022

These tasks were solved during studying in 3 semester.

Snake | 4 sem 2022

Classic snake game with text view in terminal and one graphic, written using SFML library.

PROJECTS (MIPT, 2 course, prof. Dedinsky I.R.)

Microscope
<div style="float:right">`3 sem 2022`</div>

Program that gonna help you to figure out in C++ move semantics.

Ray Traycer
<div style="float:right">`4 sem 2022`</div>

A raytraycer with cameras and lights.

SKILLS

Hard skills   C/C++, DOT, CMake, Bash, Python, Latex

Languages   *Spanish(A2), English(B2), Russian(native language)*

ACHIEVEMENTS

International Physics Olympiad
`June 2021`

Prize-winner, bronze medal

Republican Physics Olympiad
`Май 2021`

Winner, 1 diploma

Belorussian Central Testing
`July 2021`

Physics - 100 points, Mathematics - 100 points
